I have been doing crafting for the last 5 years, and my **craft business** is doing well online. Since I have given a lot of time and effort in crafting, I can help you with some creative projects that you will love to do for sure.

Stop wandering and go through some attractive projects straight away.

## Project 1: Tea Towels

Are you thinking of creating something for yourself or your home? Tea towels can be a great option. Yes, it is one of the easiest projects when it comes to [crafting with Cricut machine free](#). Moreover, you can create one and gift it to anyone you want. One of the best things about this handmade item is that you can sell it, too. More than that, it can be a good selling item as everyone needs tea towels in their homes. What can be more exciting than making money with Cricut projects?

## **Project 2: Happy Birthday Acrylic Sign**

Do you want to surprise your mom on her birthday? Create a happy birthday sign and surprise her. Personalizing the sign will make the celebration more special. And you know what? You can keep the sign and use it after one or two years, too. You can update the sign to differentiate it. But, when you plan to keep it for a long time, make sure to remove the vinyl and keep the sign in a safe place.

### **Project 3: Ribbon Bookmarks**

If you know a friend who is an avid reader, you can create some cute ribbon bookmarks and give them to him. You can also create personalized bookmarks to remember the pages from where you will need to start reading the next day. Iron-on vinyl scraps are great materials to make ribbon bookmarks with a Cricut machine. Start with these [crafts with a Cricut](#) and impress everyone with your amazing

DIY skills. With this project, you can be assured that your bookmarks are always in place, even when you are away for a long time.

## Project 4: Repurposed Windows

Are you among those who want to make some **DIY projects** and sell them on some websites? Include repurposing windows in your following **DIY project**. You will need to use Vinyl or Windows Cling to start this project. You can sell this project or keep it at home, giving your home a unique and eye-catching look. These are really simple to create

and make an impressive piece of statement. You can do this project in a quick and efficient way. Gather materials such as vinyl or window cling along with transfer tape. The final look will make your heart laugh out of happiness and satisfaction.

## **Project 5: Doormats**

Handmade doormats are something that will never go out of the trend. What can be more exciting when you have a Cricut machine by your side? This project just requires transfer tape, permanent vinyl, and a bit of

patience and effort to complete this **DIY project**. Add this to your craft inventory, and you will have some nice pieces of design for your home. Moreover, you can sell them on online websites. Add several funny quotes to your mat designs or personalize them, including your last name or something special. That's how you can start [crafting with Cricut machine ideas](#).

## Project 6: Wood Signs

Wood signs are ever-lasting, and you can create them with the help of a [Cricut machine](#) you have. Most importantly, everyone loves the sign. So, create a sign and add words displaying the meaning and intention behind them. Use paint or vinyl and sell your craft projects on online

platforms. Spark joy to your project by adding phrases. It is obvious customers will fall in love with it. The best part of this project is that you can create wood signs in various ways. Just go with trying different materials.

## Project 7: Felt Banners

Are you a great fan of felt banners? Go with felt and iron-on as materials and create the projects you have in your mind. These projects are easy to do and inexpensive, too. Create them effortlessly and make something

unique with your **Cricut product**. There are many possibilities you can do with these projects. Make changes to the shape, or you can create a banner in pennant style. This way, go with these **crafts with a Cricut** machine and surprise everyone.

## **Project 8: Baby Clothes & Accessories**

Undoubtedly, everyone wants to shop for their babies. And when it comes to shopping for a baby, how can you forget baby clothes and **accessories**? Whether it's baby showers or you are going to your loved one's baby parties, these are some cool gift items you can present to them. The smiles on their faces will be worth the time and effort you put into these projects. By using an Easy Press and iron-on/heat transfer vinyl, you can keep these **DIY projects** simple.

## **Project 9: Personalized Vase**

A vase is an important piece of project that you can use to decorate your home. So, create one and brighten up your home like never before. Yeah, it is a great idea to make use of the Cricut and get started with creating a cool, personalized vase. Furthermore, this project is easy to make at home when you have a Cricut machine. You can use either Cricut Maker or Cricut Explore Air 2 for this project.
